WG21 - Overview

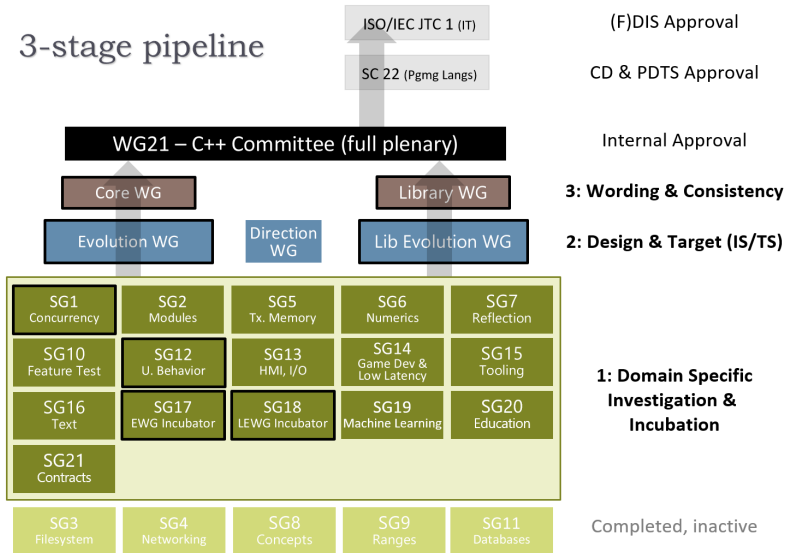

3-stage pipeline

<https://isocpp.org/std/the-committee> (pre-Cologne)

WG21 - Overview - Updated

3-stage pipeline

<https://isocpp.org/std/the-committee>

Standardization Process

- ▶ The main product of WG21 is the IS - Internation Standard

Standardization Process

- ▶ The main product of WG21 is the IS - Internation Standard
 - ▶ Additionally, there are TS documents - Technical Specification, a “feature branch” of the IS

Standardization Process

- ▶ The main product of WG21 is the IS - Internation Standard
 - ▶ Additionally, there are TS documents - Technical Specification, a “feature branch” of the IS
 - ▶ And a few more, generally less interesting, documents

Standardization Process

- ▶ The main product of WG21 is the IS - International Standard
 - ▶ Additionally, there are TS documents - Technical Specification, a “feature branch” of the IS
 - ▶ And a few more, generally less interesting, documents
- ▶ Changes to the IS are driven by papers (proposals) that are discussed (mainly) in the meetings

Standardization Process

- ▶ The main product of WG21 is the IS - International Standard
 - ▶ Additionally, there are TS documents - Technical Specification, a “feature branch” of the IS
 - ▶ And a few more, generally less interesting, documents
- ▶ Changes to the IS are driven by papers (proposals) that are discussed (mainly) in the meetings
- ▶ A paper must be approved by multiple groups before it comes to WG21 plenary

Standardization Process

- ▶ The main product of WG21 is the IS - International Standard
 - ▶ Additionally, there are TS documents - Technical Specification, a “feature branch” of the IS
 - ▶ And a few more, generally less interesting, documents
- ▶ Changes to the IS are driven by papers (proposals) that are discussed (mainly) in the meetings
- ▶ A paper must be approved by multiple groups before it comes to WG21 plenary
 - ▶ At least EWG->CWG (for language) or LEWG->LWG (for library)

Standardization Process

- ▶ The main product of WG21 is the IS - International Standard

My Papers

How to Write a Paper

Summary and References

P1748 - Fill in [delay.cpp] TODO in P1389

- ▶ SG20 and me

P1748 - Fill in [delay.cpp] TODO in P1389

- ▶ SG20 and me
- ▶ P1389 - guidelines for teaching C++ to beginners

P1748 - Fill in [delay.cpp] TODO in P1389

- ▶ SG20 and me
- ▶ P1389 - guidelines for teaching C++ to beginners
- ▶ Filling one of the missing (TODO) sections in P1389, the one about the preprocessor

P1748 - Fill in [delay.cpp] TODO in P1389

- ▶ SG20 and me
- ▶ P1389 - guidelines for teaching C++ to beginners
- ▶ Filling one of the missing (TODO) sections in P1389, the one about the preprocessor
- ▶ Started as a PR in GitHub, but the process has changed (streamlined with WG21 process)

P1748 - Fill in [delay.cpp] TODO in P1389

- ▶ SG20 and me
- ▶ P1389 - guidelines for teaching C++ to beginners
- ▶ Filling one of the missing (TODO) sections in P1389, the one about the preprocessor
- ▶ Started as a PR in GitHub, but the process has changed (streamlined with WG21 process)
- ▶ The content of the paper

P1748 - Fill in [delay.cpp] TODO in P1389

- ▶ SG20 and me
- ▶ P1389 - guidelines for teaching C++ to beginners
- ▶ Filling one of the missing (TODO) sections in P1389, the one about the preprocessor
- ▶ Started as a PR in GitHub, but the process has changed (streamlined with WG21 process)
- ▶ The content of the paper
- ▶ P1389 itself isn't relevant anymore... suppressed by P1725 - Modular Topic Design

P1747 - Don't use 'char8_t' and 'std::u8string' yet in P1389

- ▶ Paper started as an issue in GitHub

P1747 - Don't use 'char8_t' and 'std::u8string' yet in P1389

- ▶ Paper started as an issue in GitHub
- ▶ The content of the paper

P1747 - Don't use 'char8_t' and 'std::u8string' yet in P1389

- ▶ Paper started as an issue in GitHub
- ▶ The content of the paper
- ▶ Results:

P1747 - Don't use 'char8_t' and 'std::u8string' yet in P1389

[SG16 2019-07 review in Cologne](#)

Polls:

P1747R0 - Paper as proposed.

SF	F	N	A	SA
8	2	0	0	0

That has consensus.

Dropping the SG16 label.

P1749 - Access control for reflection

- ▶ Heard David Sankel in CppCast talking about Reflection TS

P1749 - Access control for reflection

- ▶ Heard David Sankel in CppCast talking about Reflection TS
- ▶ He mentioned reflection on names of function parameters

P1749 - Access control for reflection

- ▶ Heard David Sankel in CppCast talking about Reflection TS
- ▶ He mentioned reflection on names of function parameters
- ▶ Unspecified which name is returned if multiple declarations don't agree on the name

P1749 - Access control for reflection

- ▶ Heard David Sankel in CppCast talking about Reflection TS
- ▶ He mentioned reflection on names of function parameters
- ▶ Unspecified which name is returned if multiple declarations don't agree on the name
- ▶ I was reading D&E and encountered the section about “Keyword Arguments”, the objections there are still relevant

P1749 - Access control for reflection

- ▶ Heard David Sankel in CppCast talking about Reflection TS
- ▶ He mentioned reflection on names of function parameters
- ▶ Unspecified which name is returned if multiple declarations don't agree on the name
- ▶ I was reading D&E and encountered the section about “Keyword Arguments”, the objections there are still relevant
- ▶ Wrote an email to David Sankel, he suggested writing a paper, so I did

P1749 - Access control for reflection

- ▶ Heard David Sankel in CppCast talking about Reflection TS
- ▶ He mentioned reflection on names of function parameters
- ▶ Unspecified which name is returned if multiple declarations don't agree on the name
- ▶ I was reading D&E and encountered the section about “Keyword Arguments”, the objections there are still relevant
- ▶ Wrote an email to David Sankel, he suggested writing a paper, so I did
- ▶ A bit after sending the paper, I watched his talk from C++Now and some of the points were mentioned in the Q&A part :)

We want to revisit the decision to reflect on parameter names?

SF	F	N	A	SA
0	0	2	15	30

Do we want to revisit the decision around reflection bypassing access control?

SF	F	N	A	SA
0	0	1	11	36

My Papers

How to Write a Paper

Summary and References

Writing a Paper

- ▶ Find something you really care about or interested with

Writing a Paper

- ▶ Find something you really care about or interested with
- ▶ Read the relevant papers (current and previous ones) and previous decisions done

Writing a Paper

- ▶ Find something you really care about or interested with
- ▶ Read the relevant papers (current and previous ones) and previous decisions done
- ▶ ... and relevant sections in current standard, if it isn't a totally new feature

Writing a Paper

- ▶ Find something you really care about or interested with
- ▶ Read the relevant papers (current and previous ones) and previous decisions done
- ▶ ... and relevant sections in current standard, if it isn't a totally new feature
- ▶ Not everything must be a paper (PR or issue in GitHub for editorial fixes; DR for small bugs)

Writing a Paper

- ▶ Find something you really care about or interested with
- ▶ Read the relevant papers (current and previous ones) and previous decisions done
- ▶ ... and relevant sections in current standard, if it isn't a totally new feature
- ▶ Not everything must be a paper (PR or issue in GitHub for editorial fixes; DR for small bugs)
- ▶ Be prepared to come and present it, or find someone else to do it (“champion” it)

How to Write a Paper

Summary and References

Summary

- ▶ If you care about something in the standard - write a paper (or submit a DR)

Summary

- ▶ If you care about something in the standard - write a paper (or submit a DR)
- ▶ Make sure you know how to write the paper, what is expected to be there

Summary

- ▶ If you care about something in the standard - write a paper (or submit a DR)
- ▶ Make sure you know how to write the paper, what is expected to be there
 - ▶ Reading papers helps a lot

Summary

- ▶ If you care about something in the standard - write a paper (or submit a DR)
- ▶ Make sure you know how to write the paper, what is expected to be there
 - ▶ Reading papers helps a lot
- ▶ Make sure the paper is represented in the committee meetings

Summary

- ▶ If you care about something in the standard - write a paper (or submit a DR)
- ▶ Make sure you know how to write the paper, what is expected to be there
 - ▶ Reading papers helps a lot
- ▶ Make sure the paper is represented in the committee meetings
- ▶ Be ready for the feedback
